THIS IS HUGE!
PLEASE PASS THIS ON TO ALL OF YOUR LOVED ONES!

The latest international testing of hydroxychloroquine treatment of coronavirus shows countries that had early use of the drug had a 79% lower mortality rate than countries that banned the use of the safe malaria drug.

This means that Dr. Fauci, Dr. Birx, the CDC, the liberal fake news media and the tech giants have been pushing a lie that has had deadly consequences!

The "Russian Vaccine Hack" Is A 3-For-1 Deal On Propaganda

by Tyler Durden
Fri, 07/17/2020 - 06:00

Authored by Kit Knightly via Off-Guardian.org,

Apparently, that mean old Putin is stealing our magic vaccine to fight the ‘deadly virus’...

1. The further demonisation of an “enemy”. Russia is portrayed as pursuing "selfish interests with reckless behaviour", whilst we (and our allies) are “getting on with the hard work of finding a vaccine and protecting global health.”

2. Promoting the vaccine. The vaccine is coming. It will likely be mandatory, it will certainly have been insufficiently tested, if tested at all. They need some pro-vaccine advertising, and nothing sells better than “our vaccine is so good, people are trying to steal it”.

3. Most importantly – Enhancing the idea that Sars-Cov–2 is a unique global threat which puts us all in danger. The unspoken assumption is that Russia needs to steal our research because the virus is so dangerous we all need to be afraid of it...despite it being harmless to the vast majority of people.

Whether it’s the (totally unsubstantiated) allegation that Russia put bounties on NATO servicemen in Afghanistan, or the (very predictable) “leak” that "Russian interference" was backing Corbyn in the general election, it’s clear that any Globalist deal on the coronavirus is dead and buried, and it’s very much open season on Putin’s Russia again.

Nothing shows just how much the Guardian has become the voice of the Deep State more than its coverage of anything Russia-related. And nothing serves as a better exemplar of how modern propaganda works.
